

Up / Down Linear

Architectural LED Luminaire

green:ID

**Minimalist Design,
combines brilliant aesthetics
with space-filling light.**

It creates an exceptionally thin profile that appears to float across your ceiling landscape. When turned on, it produces a perfectly even glow, and while off, it is nearly transparent with LEDs hidden inside the frame.

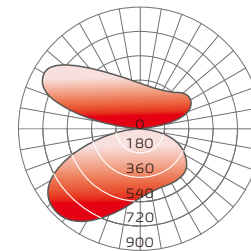

Maximized Performance

Both ambient and directional, it guides light up for general illumination as well as aiming it precisely down for specific functionality. It is perfect for applications that include conference rooms, open offices, retail settings, anywhere you want to make a statement.

Distinctive
Flexible
Practical
Simple

Transparent Optics

Timeless transparent edge-lit linear has been designed to efficiently deliver and control light for direct-indirect and direct pendant lighting applications where visual comfort and low energy consumption are the primary requirements.

AVERAGE BEAM ANGLE(50%): 319.7°

Up/Down Linear

It is a modern expression of lighting technology contained within a sleek and elegant for ideally suited for general illumination.

Project in Automotive Dealer Office
in California, USA

Built-in Driver

All drivers are built-in, and can be replaced easily, which is more convenient to fix and maintain.

CCT Adjustable- Puts flexibility at your fingertips

It is truly a modern luminaire that provides flexibility in how a space is illuminated, featuring independently-adjustable CCT by using dip switch, creating your optimal lighting experience.

- Adjustable CCT from 3000K, 3500K and 4000K
- Designed for all projects
- Lower your stock risk

Continuous Runs

One power can feed multiple lamps to minimize installation time and save labor cost. Runs of luminaires that are up to 80ft.

Seamless

It's highly engineered luminaire joining design allows for simple and intuitive assembly in the field without tools. Its junction plate ensures that luminaire rows snap into a laser straight line.
