# green:ID

Features of PIR Panel Light
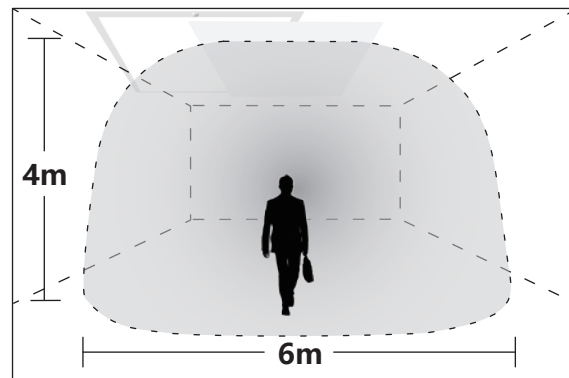

1 Integrated Design: Very easy to install and use, no manual switch required.

2 Fast Sensing Speed: The response speed is fast, realizing the effect of lights turning on when people come and turning off after people leave.

3 Energy Saving and Environmental Protection: If the human body enters the sensing range, the light will turn on, and will turn off after the person leaves.

4 Wide Application: It is widely used in smart homes, smart hotels, smart offices, smart bathrooms and other fields, and can effectively solve the intelligent needs of homes, hotels, office buildings, restrooms and other places.

Technical Parameters

Model No	WES-PLS6060-36PPIR
Size/MM	Silver / White
Frame Color	595x595x11MM
Power	AC200-240V
Input Voltage	36W
LED Type	204PCS SMD2835
CCT	3000K/4000K/5000K/6000K
CRI	> 80Ra/ > 90Ra
Luminous Efficiency	100-110LM/W
LGP Material	PMMA
Sensing Distance	3-8 Meters
Guaranty	3 Years
Packing	1panel/1inner box, 5inner boxes /1carton

Light sensor control: when the light is dim, the light turns on whenpeople come within the sensing range;When the person leaves thesensing range for 45 seconds, the light automatically turns off.

Ceiling Mounting Pattern (M)

Application Cases
